# WELCOME TO THE WORLD OF REFERENCES

Since 1994, we have been specializing in the development and production of industrial and interior lighting solutions in the Czech Republic.

As experts in the field, we develop, manufacture, and deliver custom luminaires tailored to your unique projects.

From professional advice to innovative solutions, we ensure your lighting choice is perfect in every way.

# CONTENTS

---

## **Common production and logistics areas (3.5-8 m)** p. 01 - 10

indoor and outdoor covered spaces, production halls, warehouses, logistics centres, sports complexes, industrial workshops, repair facilities, transport terminals, and corridors

## **Low ceilings (2.5-4 m)** p. 11 - 20

parking houses, garages, cellars, corridors, workshops, commercial premises, and retail shops

## **High ceilings (7.5-15 m)** p. 21 - 26

industrial halls, warehouses, logistics centres, sports arenas, and gyms

## **Chemically demanding facilities** p. 27 - 34

agricultural and livestock facilities, chemical plants, laboratories, automobile repair shops, printing plants, battery storage facilities, food & beverage processing plants, sewage treatment plants, and industrial treatment plants

## **Explosion hazard areas** p. 35 - 36

oil and gas refineries, chemical plants, warehouses with flammable liquids and gases, mines, cosmetic and pharmaceutical production facilities, biomass & biogas plants, and metal surface finishing plants

## **Low ambient temperatures** p. 37 - 38

cooling & freezing plants, refrigerated warehouses, and outdoor covered shelters with extremely low temperatures

## **High ambient temperatures** p. 39 - 40

steel and foundry plants, electroplating and painting facilities, greenhouses, industrial furnaces and drying rooms, rubber and plastic production plants, saunas and baths, engine & machine rooms, glass & ceramics workshops, mining facilities, and automotive testing centres

## **High-dust environments** p. 41 - 42

woodworking workshops, cement & concrete works, textile factories, mills & grain processing plants, mining facilities, ceramics & stone workshops, glassworks, agricultural & food processing facilities, recycling facilities, and construction sites

## **Gastro & food industry** p. 43 - 44

food production plants, professional kitchens, canteens, fast food restaurants, and bistros

## **Outdoor covered areas** p. 45 - 50

transport terminals & stops, tunnel, underpasses & passageways, covered industrial ramps, entrance areas & shelters, and covered loading zones at logistics centres.

## **Buildings for cattle breeding** p. 51 - 52

breeding facilities

## **Interiors** p. 53 - 66

offices, meeting rooms, educational facilities, classrooms, libraries, entrance areas, corridors, and ancillary operational areas

## **Public lighting** p. 67 - 70

pavements & pedestrian zones, roads, parks & recreational areas, car parks, bridges & underpasses, cycle paths, pedestrian crossings and safety islands

**PRODUCTION**  
AND **LOGISTICS**  
AREAS

OUR PRODUKT

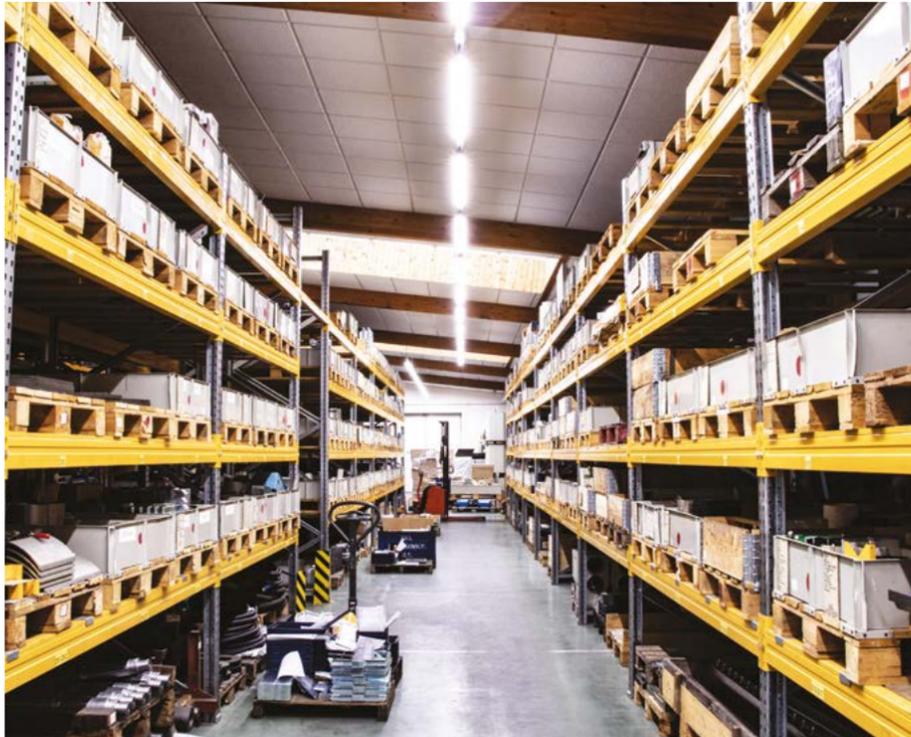

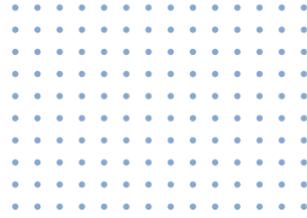

**HIGH-CAPACITY PRINTER**

**LOCATION**  
Veszprém / Hungary

**LUMINAIRE**  
INNOVA 1.5ft PC 8000/840

TREEVOS

Prospektus is one of Hungary's largest family-owned sheetfed offset printers, delivering excellence since 1986. They have selected INNOVA luminaires because they requested fast installation and superior rating (IP66, IP69).

# COMMON PRODUCTION AND LOGISTICS AREAS

OUR PRODUKT

## INDUSTRIAL PRODUCTION HALL AND WAREHOUSE

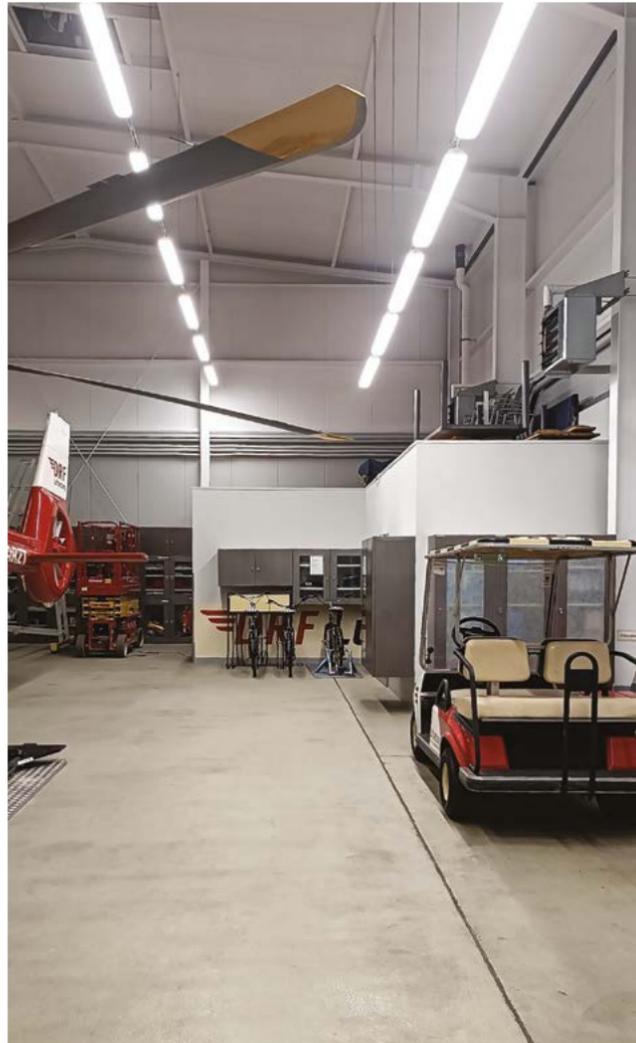

**LOCATION**  
Dobřichovice - Lety / Czech Republic

**LUMINAIRE**  
NANOTTICA 1.5ft PC 8000/840

TREEVOS

SWAH, s.r.o. opted for NANOTTICA high-performance luminaires in their production areas and warehouses in Dobřichovice to ensure optimal lighting of their workplaces. These luminaires boast a high rating (IP66/IP69), ensuring durability in harsh conditions.

# COMMON PRODUCTION AND LOGISTICS AREAS

OUR PRODUKT

## HANGAR

**LOCATION**  
Bad Saarow / Germany

**LUMINAIRE**  
FUTURA 2.5ft PC Al 16000/840

TREEVOS

To meet the need for high-performance lighting that ensures daily safety checks of the rescue helicopter before its take-off, the German emergency medical services DRF Luftrrettung in Bad Saarow installed FUTURA luminaires.

AREAS

OUR PRODUKT

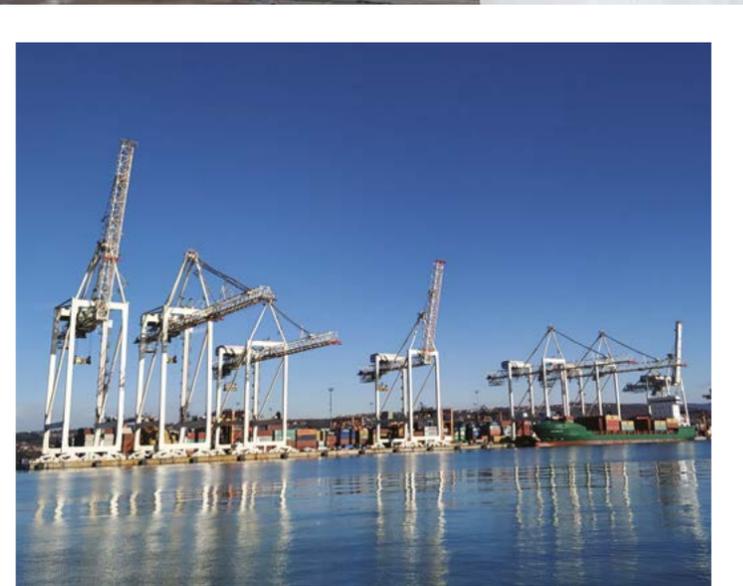

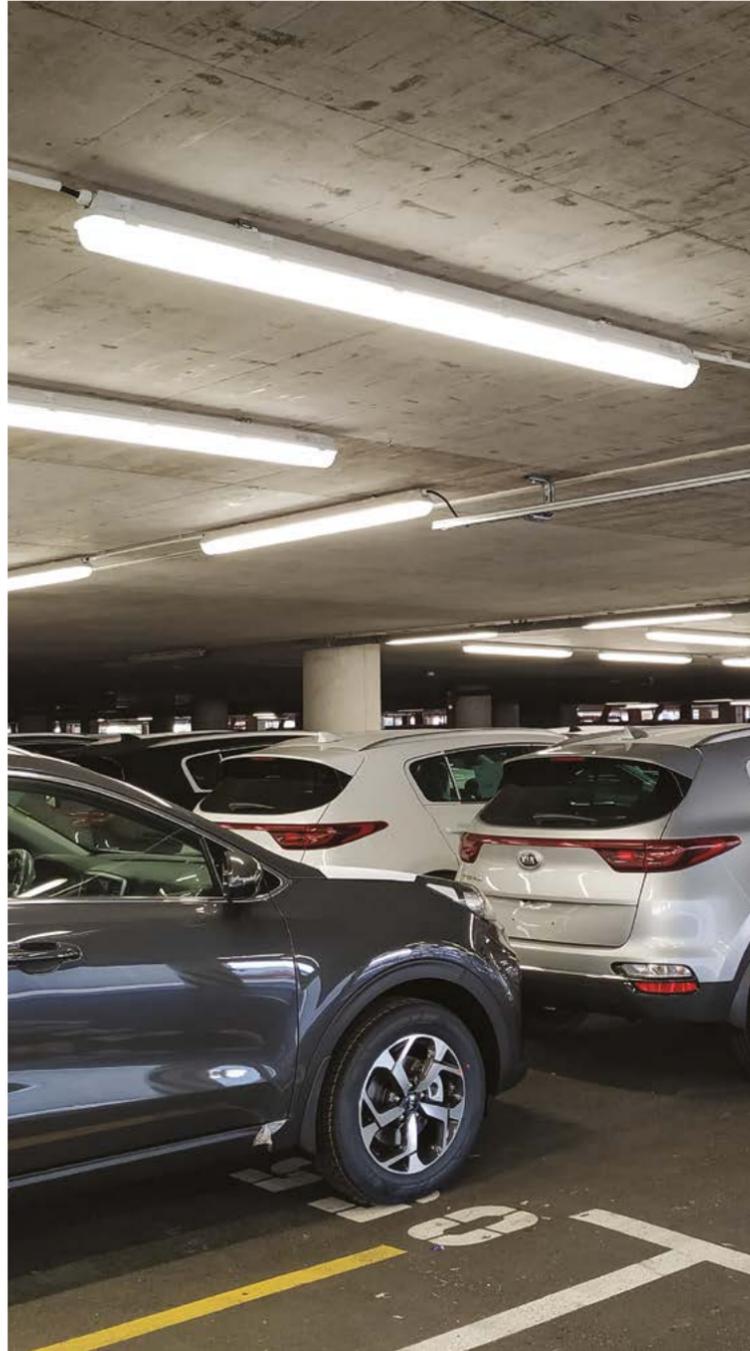

**INDUSTRIAL PRODUCTION HALL**

**LOCATION**  
Kolín / Czech Republic

**LUMINAIRE**  
FUTURA 2.5ft PC Al 11000/840

TREEVOS

KOPOS Kolín, a.s. has equipped their production premises with high-performance FUTURA luminaires. These high-performance luminaires are designed to reliably illuminate even high-ceiling spaces. With a built-in aluminum heat sink, the luminaires efficiently manage cooling, ensuring optimal performance for powerful lighting needs.

## LOW CEILINGS

OUR PRODUKT

### MULTI-STOREY GARAGES

**LOCATION**  
Koper / Slovenia

**LUMINAIRE**  
PRIMA LED 1.5ft PC 5500/840

TREEVOS

In the multi-storey garage at the port of Koper, Slovenia, PRIMA LED luminaires were installed for their dust-tight, moisture-resistant design and ability to handle pressurized water sprays (IP66). An emergency lighting option was also integrated to ensure safety in case of power outages.

LOW CEILINGS

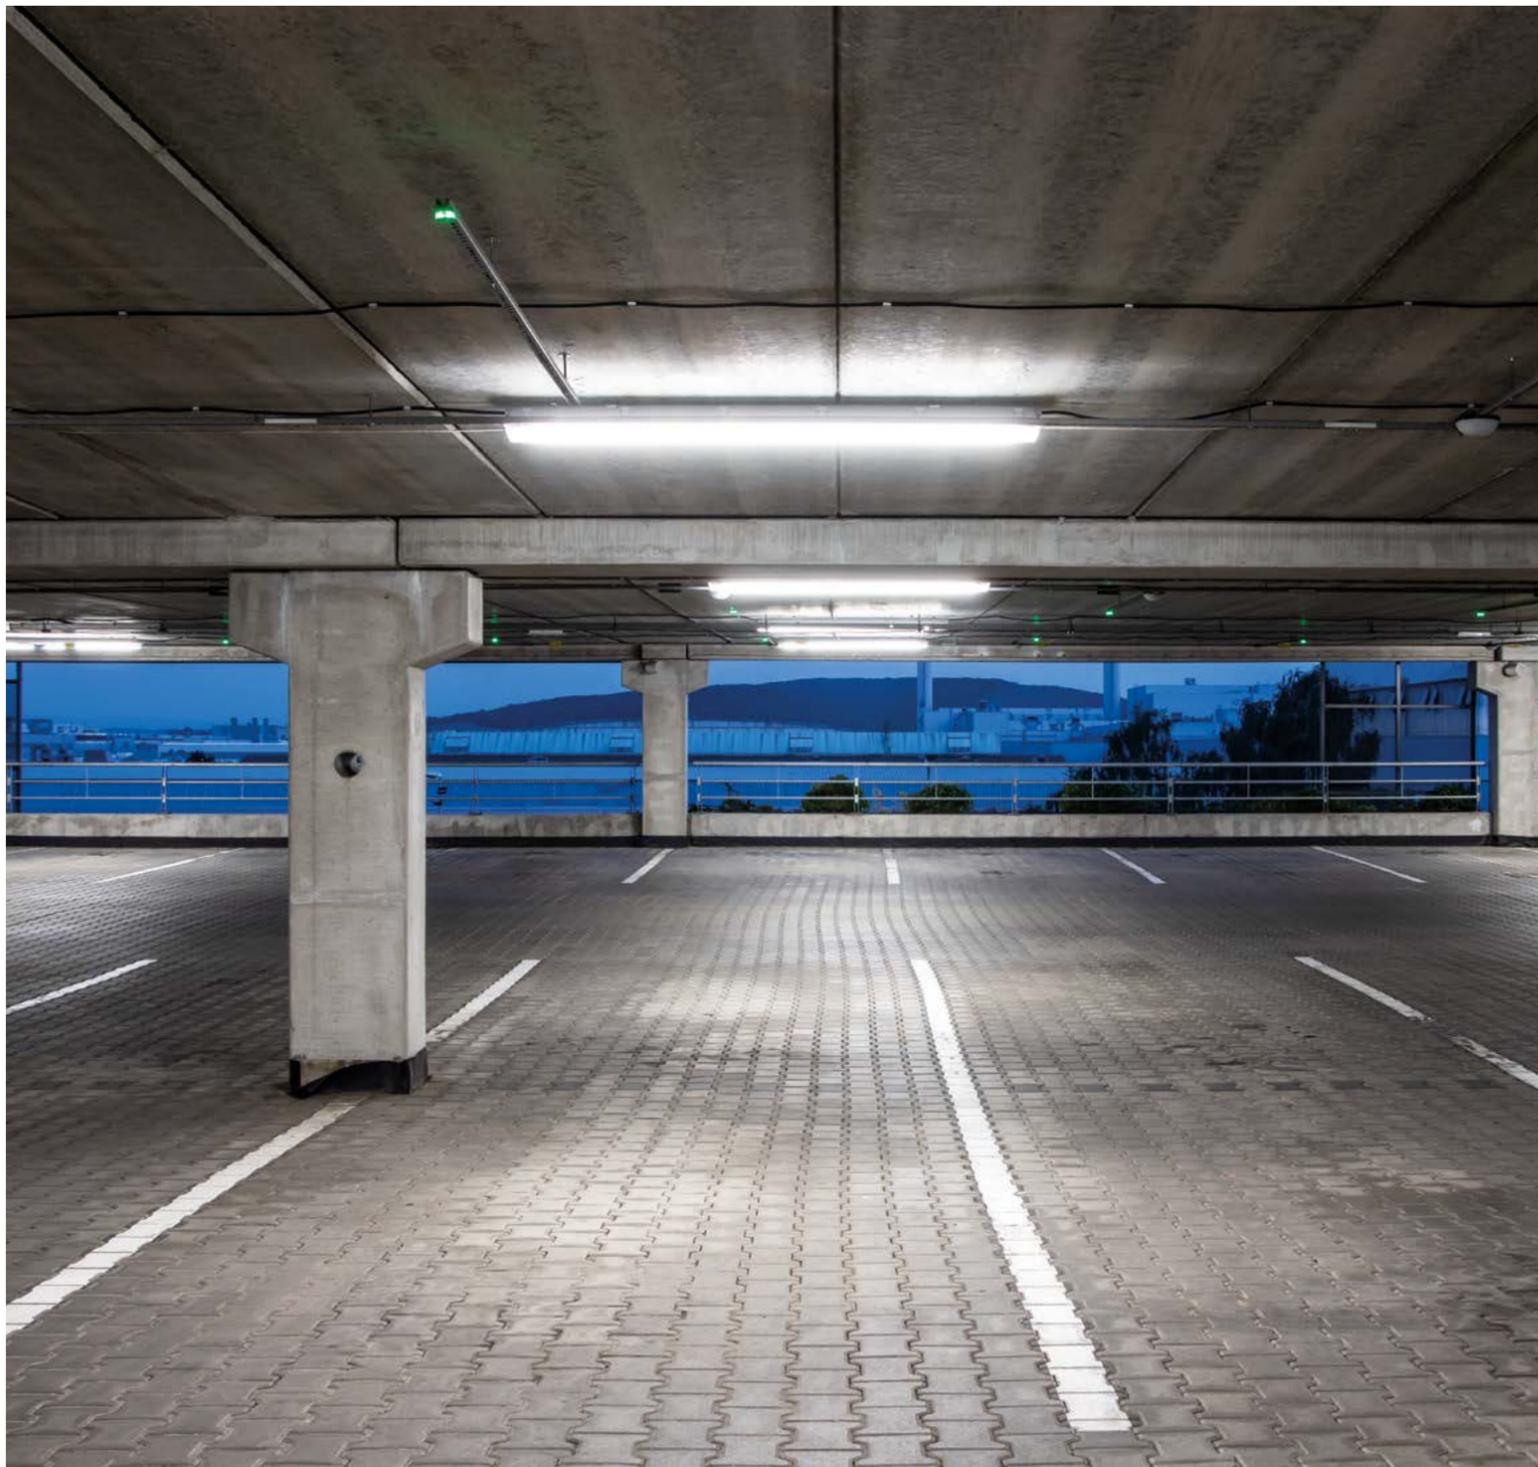

PARKING HOUSE

LOCATION  
Prague / Czech Republic

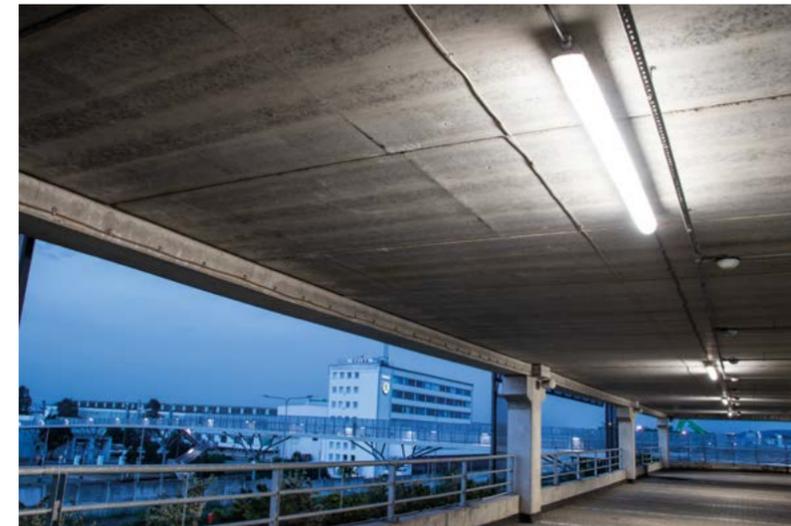

LUMINAIRE  
PRIMA LED 1.5ft PC 8000/840

TREEVOS

At Westfield Chodov, the largest shopping centre in the Czech Republic, PRIMA LED luminaires illuminate the parking areas. These robust industrial lights offer efficient and pleasant lighting in low-ceiling environments.

LOW CEILINGS

OUR PRODUKT

## PARKING HOUSE

### LOCATION

Mladá Boleslav / Czech Republic

### LUMINAIRE

PRIMA LED 1.5ft PC 5500/840

TREEVOS

The Škoda Auto parking garage in Mladá Boleslav now features PRIMA LED luminaires. These high-quality industrial luminaires with IP66 rating deliver versatile and reliable illumination in these specific parking areas.

LOW  
CEILING

OUR PRODUKT

APARTMENT COMPLEX GARAGE

**LOCATION**  
Liberec / Czech Republic

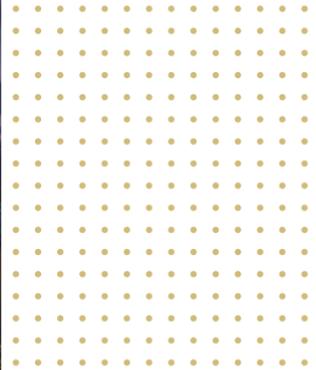

**LUMINAIRE**  
PRIMA LED 1.4ft PC 3200/840

TREEVOS

Powerful industrial PRIMA LED luminaires were installed in the above-ground and underground garages of the Tři věže residential complex in the city centre of Liberec, providing optimal illumination suited to these environments.

# LOW CEILINGS

## UNDERGROUND GARAGE

**LOCATION**  
St. Julian's / Malta

**LUMINAIRE**  
INNOVA 1.4ft PC 6400/840

TREEVOS

INNOVA luminaires were selected for the prestigious Mercury Tower Malta's tallest skyscraper, construction due to their quick installation and high rating (IP66, IP69) requirements.

# HIGH CEILINGS

## INDUSTRIAL PRODUCTION HALL

**LOCATION**  
Bergamo / Italy

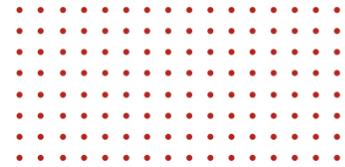

**LUMINAIRE**  
CANOPUS NB 30000/840

TREEVOS

The CANOPUS NB luminaire was chosen for its high performance and suitability for high ceilings, meeting the customer's demand for significantly improved lighting quality in the production hall.

## HIGH CEILINGS

OUR PRODUKT

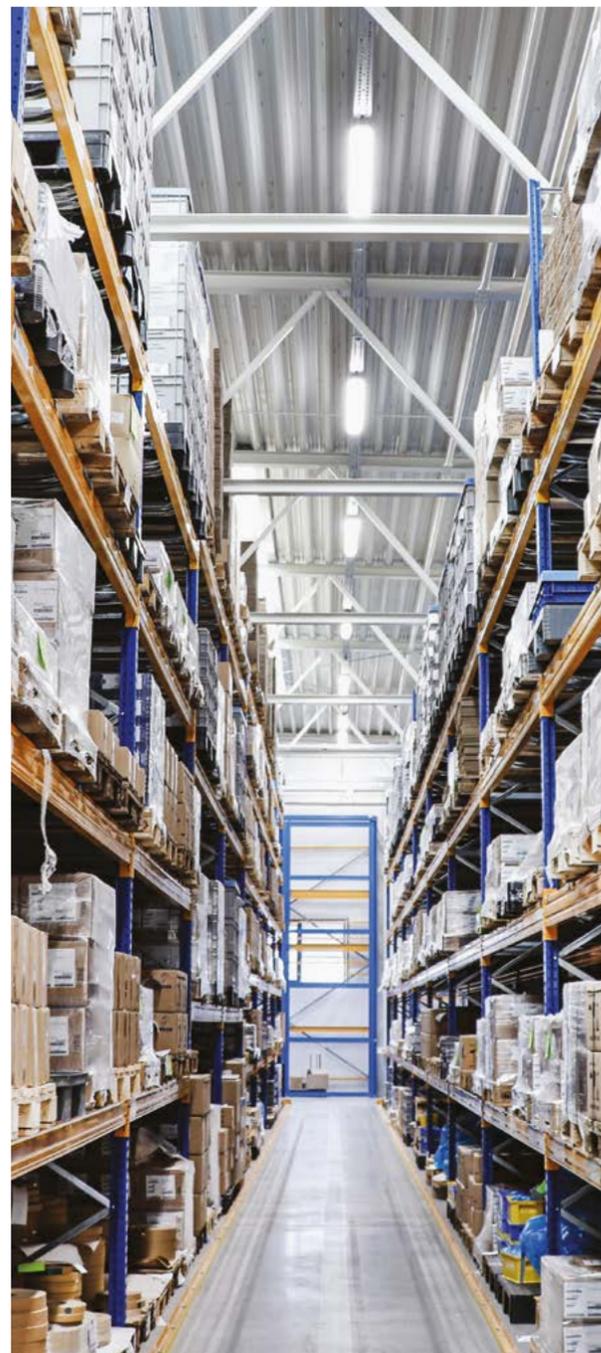

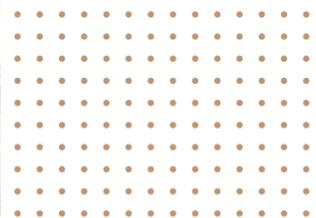

### ASSEMBLY HALL

**LOCATION**  
Polička / Czech Republic

**LUMINAIRE**  
CANOPUS 22000/840

TREEVOS

CANOPUS luminaires were installed in the assembly hall for manufacturing fire trucks and other firefighting equipment. These metal industrial luminaires provide high luminous flux, ensuring superior illumination in high-ceiling spaces of the assembly hall.

# HIGH CEILINGS

OUR PRODUKT

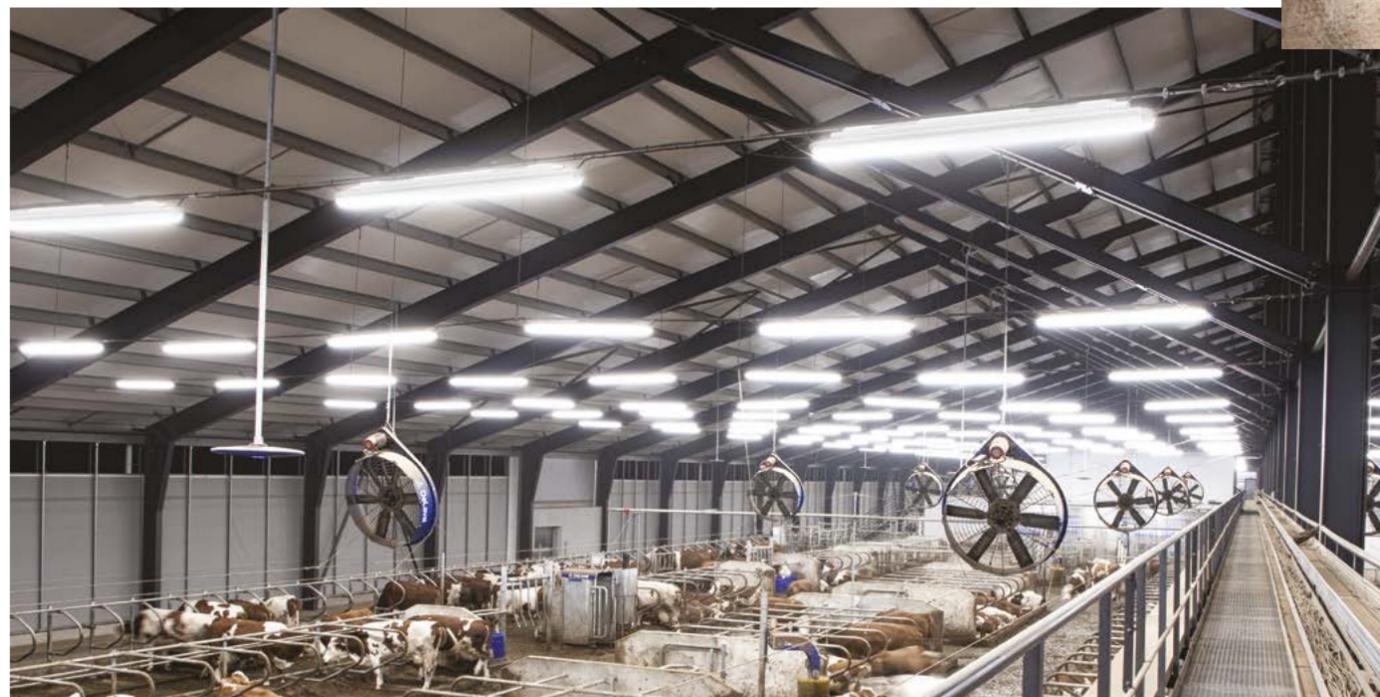

## STORAGE HALL

**LOCATION**  
Hradec Králové / Czech Republic

**LUMINAIRE**  
FUTURA 2.5ft NB PC AL 16000/840 / FUTURA 2.5ft PC AL 16000/840

TREEVOS

The storage halls of STUEKEN, s.r.o. in Hradec Králové are now illuminated by powerful two-row FUTURA and FUTURA NB luminaires, specially designed for high-ceilinged areas.

# CHEMICALLY DEMANDING FACILITIES

OUR PRODUKT

## MODERN AGRICULTURAL OBJECT

**LOCATION**  
Bělá u Staré Páky / Czech Republic

**LUMINAIRE**  
INNOVA 1.4ft ABS 6400/840

TREEVOS

The INNOVA ABS series luminaires, with their high IP66 and IP69 ratings and ammonia resistance, offer quick and easy installation, meeting the standards of one of Europe's most modern cowsheds in Bělá / Stará Paka.

# CHEMICALLY DEMANDING FACILITIES

OUR PRODUKT

## AUTOMOBILE REPAIR SHOP

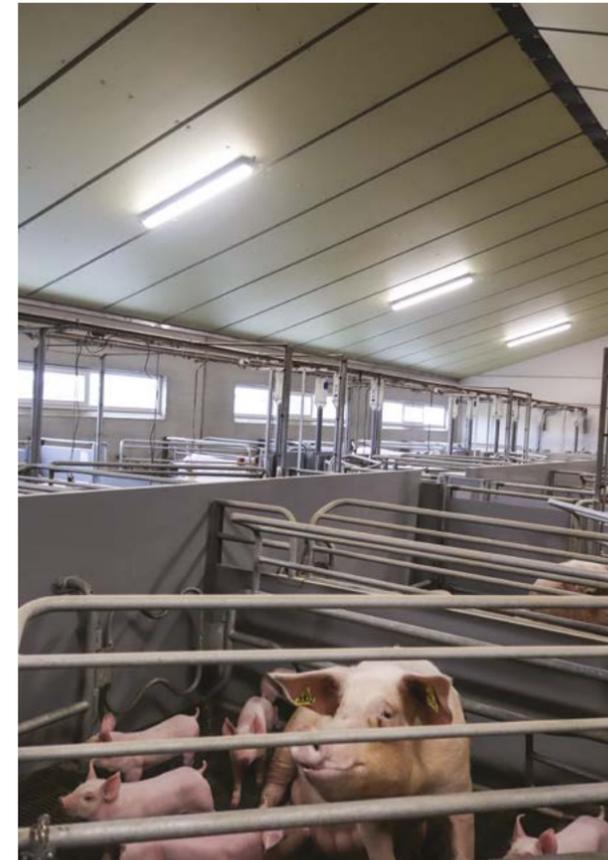

**LOCATION**  
Prague / Czech Republic

**LUMINAIRE**  
FUTURA 2.5ft HE ABS Al 11000/840

TREEVOS

The requirement for high-performance luminaires for precision work and resistance to the chemicals used in the car repair shop was fulfilled by the FUTURA HE ABS luminaires that were installed in the workshops of the authorized Lotus service centre in Prague.

# CHEMICALLY DEMANDING FACILITIES

OUR PRODUKT

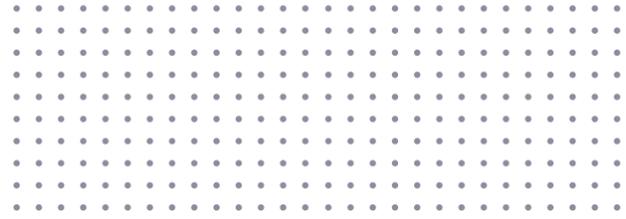

## FARM

**LOCATION**  
Heestert / Belgium

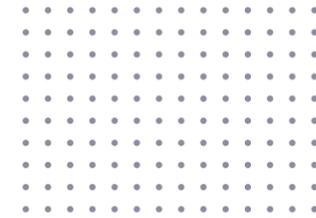

**LUMINAIRE**  
FUTURA 2.5ft ABS A1 8000/840

TREEVOS

On a Belgian pig farm, FUTURA ABS luminaires were chosen for their high chemical resistance, making them perfect for environments exposed to ammonia, alkalis, and alkaline compounds.

# CHEMICALLY DEMANDING FACILITIES

OUR PRODUKT

## CAR WASH

**LOCATION**  
Tournai / Belgium

**LUMINAIRE**  
INNOVA 1.5ft ABS 5500/840

TREEVOS

INNOVA ABS luminaires, known for their high rating (IP66, IP69) and resistance to car wash chemicals, were installed in the Volvo showroom car wash in Belgium. These non-disassemblable luminaires are favored for their easy and quick installation.

# EXPLOSION HAZARD AREAS

OUR PRODUKT

## PAINT SHOP WITH EXPLOSION RISK

**LOCATION**  
Polička / Czech Republic

**LUMINAIRE**  
PRIMA LED Ex 2.4ft PCc 6400/840 / PRIMA LED Ex 2.5ft PCc 8000/840

TREEVOS

THT Polička, a manufacturer of firefighting equipment since 1899, chose PRIMA LED EX luminaires for their paint shop with explosion risks. These luminaires are certified for environments with explosive gases, dust, and flammable vapors.

# LOW AMBIENT TEMPERATURES

OUR PRODUKT

## COLD STORAGE FACILITY

**LOCATION**  
Kruisem / Belgium

**LUMINAIRE**  
FUTURA 2.5ft MAX NB PCc AI 11000/840 DALI 1F

TREEVOS

Belgium's leading poultry meat processor has installed FUTURA MAX luminaires in their cold storage facilities. Designed to handle extreme temperatures from  $-40^{\circ}\text{C}$  to  $+70^{\circ}\text{C}$ , these custom-made luminaires meet the specific lighting needs of high-ceilinged areas in low temperatures.

# HIGH AMBIENT TEMPERATURES

OUR PRODUKT

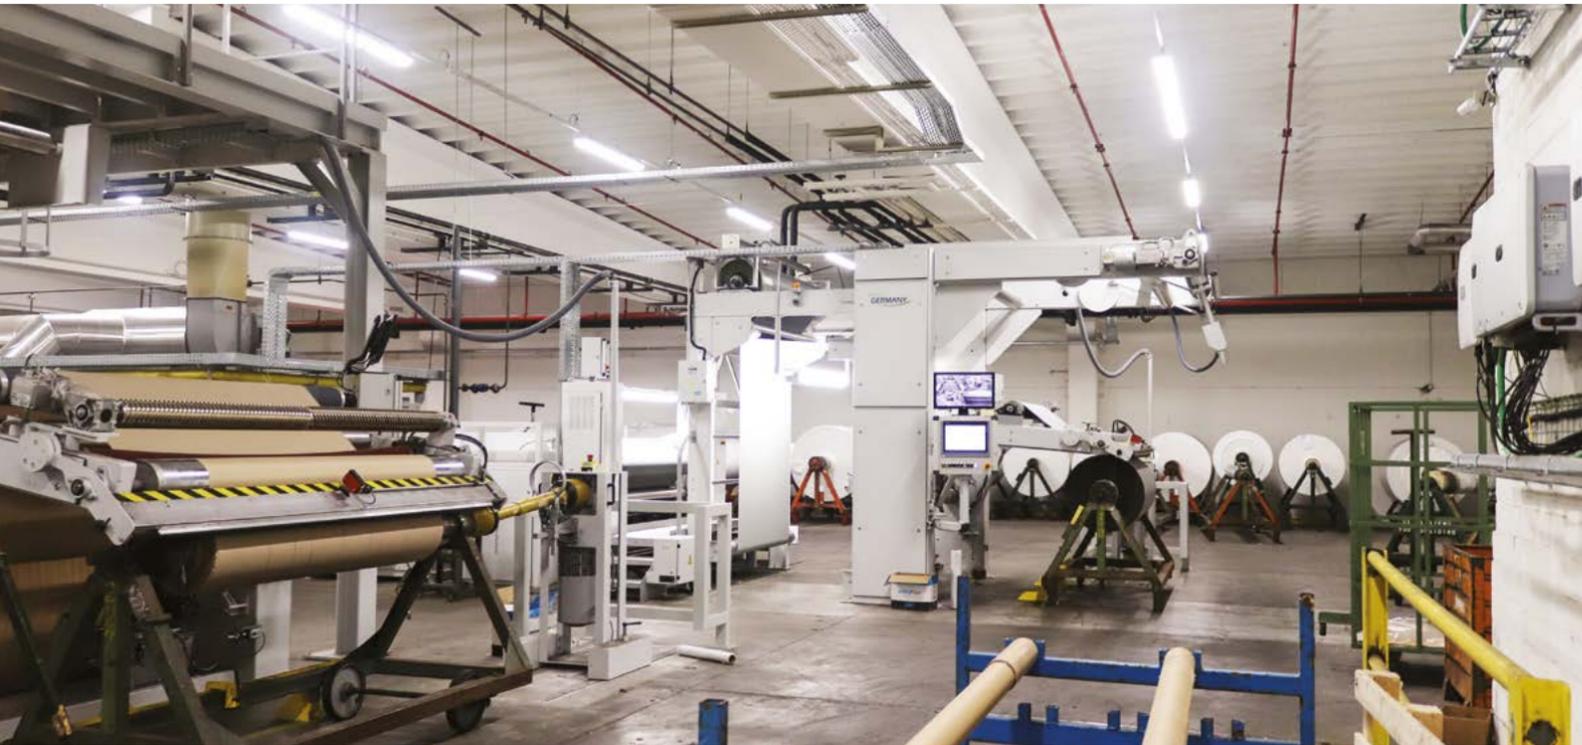

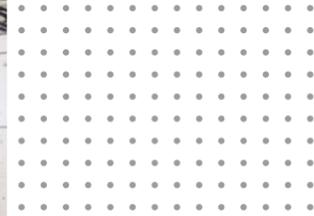

## POWDER COATING PLANT

**LOCATION**  
Žamberk / Czech Republic

**LUMINAIRE**  
FUTURA 2.5ft MAX PCc Al 11000/840

FUTURA MAX luminaires installed in GAF s.r.o.'s new powder coating plant meet the need for high-performance lighting that can handle ambient temperatures up to 70°C, which are typical for paint shops.

TREEVOS

# HIGH-DUST ENVIRONMENTS

OUR PRODUKT

## TEXTILE PRODUCTION FACILITY

**LOCATION**  
Waregem / Belgium

**LUMINAIRE**  
FUTURA 2.5ft PC Al 8000/840

TREEVOS

A Belgian textile company with nearly a century of tradition has equipped its production hall with FUTURA two-row luminaires. These lights are designed to handle the highly dusty environment and elevated temperatures up to 50°C generated during production.

# GASTRO & FOOD INDUSTRY

OUR PRODUKT

## CATERING FACILITY

**LOCATION**  
Lomnice nad Popelkou / Czech Republic

**LUMINAIRE**  
PRIMA LED 1.4ft MAX 6400/840

PRIMA LED MAX luminaires were installed in the modern kitchen of the new DOMOV DOMA building in Lomnice nad Popelkou. These luminaires were selected for their modern design, dust-proof capabilities, and resistance to kitchen fumes.

TREEVOS

# OUTDOOR COVERED AREAS

OUR PRODUKT

## BUS TERMINAL

**LOCATION**  
Černý Most Prague / Czech Republic

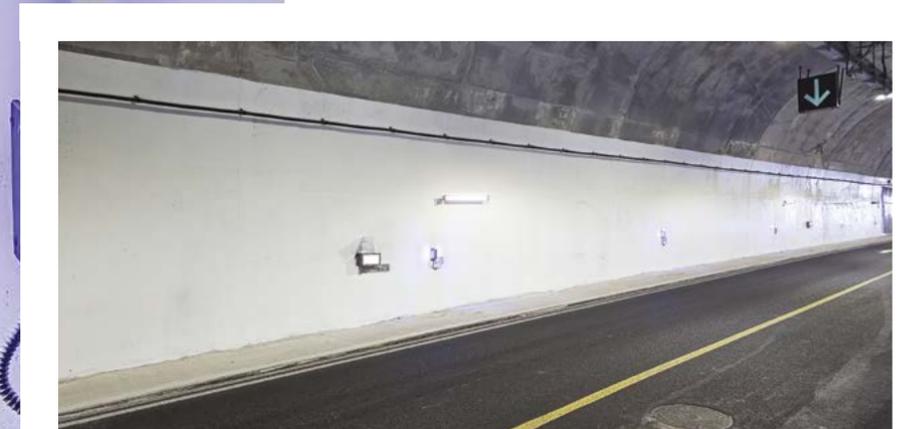

**LUMINAIRE**  
INNOVA 1.5ft PC 8000/840 2x3P

TREEVOS

INNOVA luminaires were chosen for the outdoor installation at the busy Černý Most metro station (Line B) in Prague. With high rating (IP66/IP69) and easy installation, these luminaires provide reliable lighting and strong resistance to mechanical damage (IK10).

# OUTDOOR COVERED AREAS

OUR PRODUKT

## FRENCH HILL TUNNELS

**LOCATION**  
Jerusalem / Israel

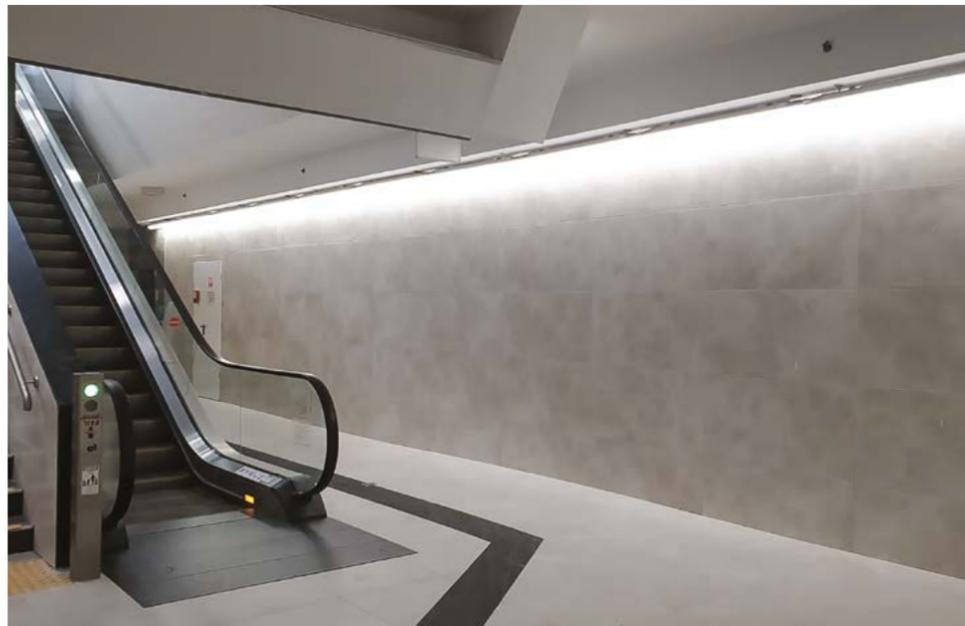

**LUMINAIRE**  
ALUMAX LED 1.4ft 4400/840

TREEVOS

ALUMAX LED luminaires were installed in the French Hill tunnels on Israel's Highway 1, connecting Tel Aviv, Jerusalem, and the Dead Sea. Thanks to their aluminum body and high rating (IP66), they met the rigorous demands of this project.

# OUTDOOR COVERED AREAS

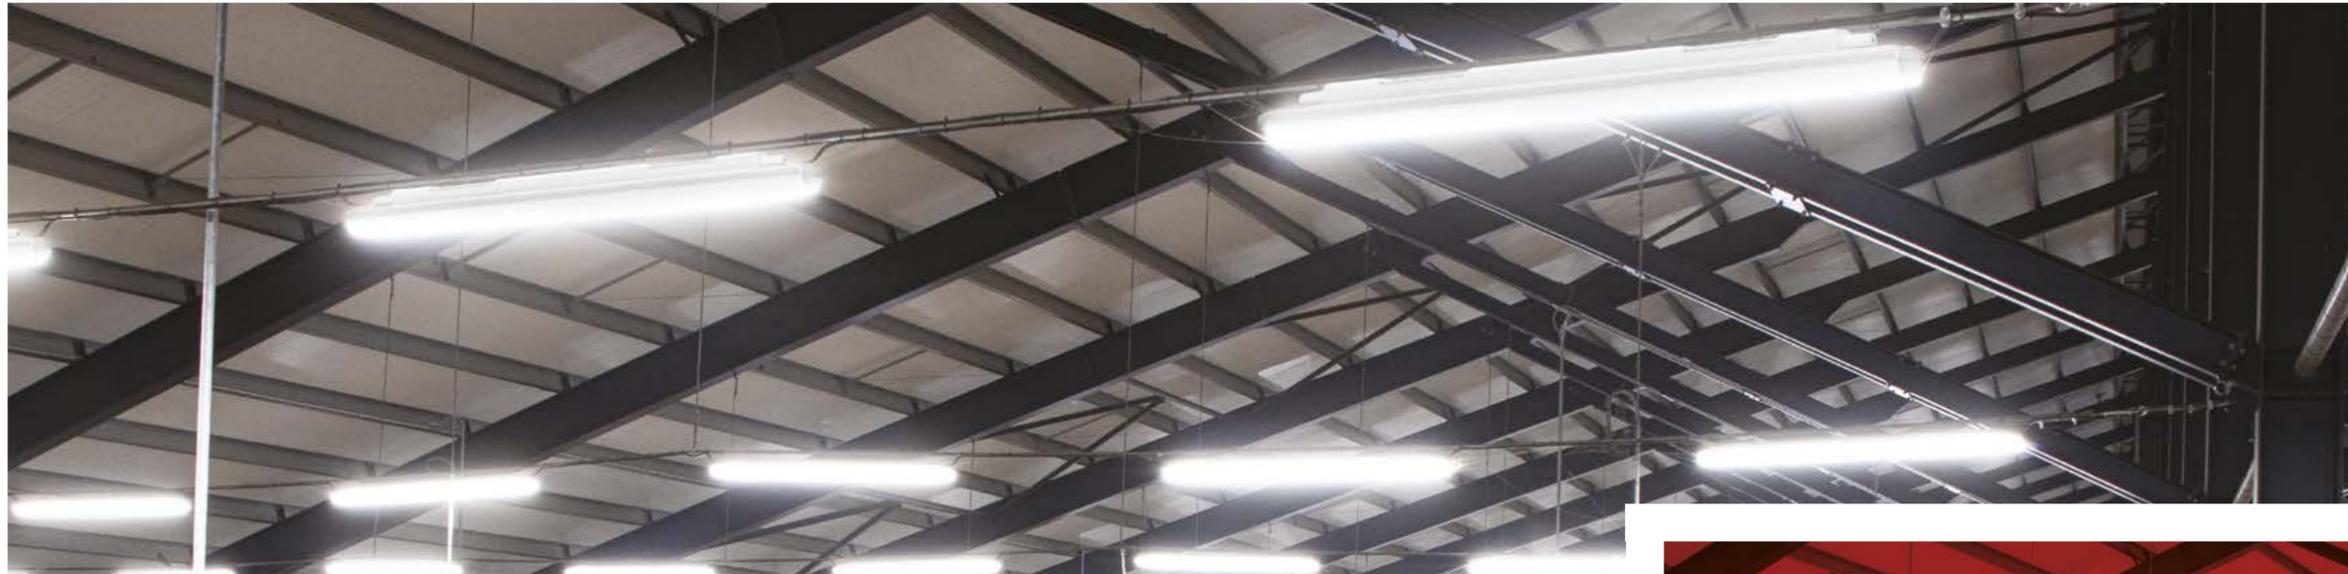

## RAILWAY STATION

**LOCATION**  
Ahihud / Israel

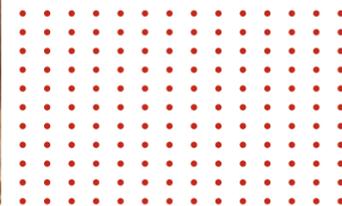

**LUMINAIRE**  
INNOVA 1.4ft PC 4400/840

TREEVOS

INNOVA high-rating luminaires (IP66 and IP69) were installed at Ahihud railway station to ensure safe and efficient lighting for passengers. These luminaires can also be seamlessly connected in a continuous light row.

# BUILDINGS FOR **CATTLE** **BREEDING**

OUR PRODUKT

## BREEDING FACILITY

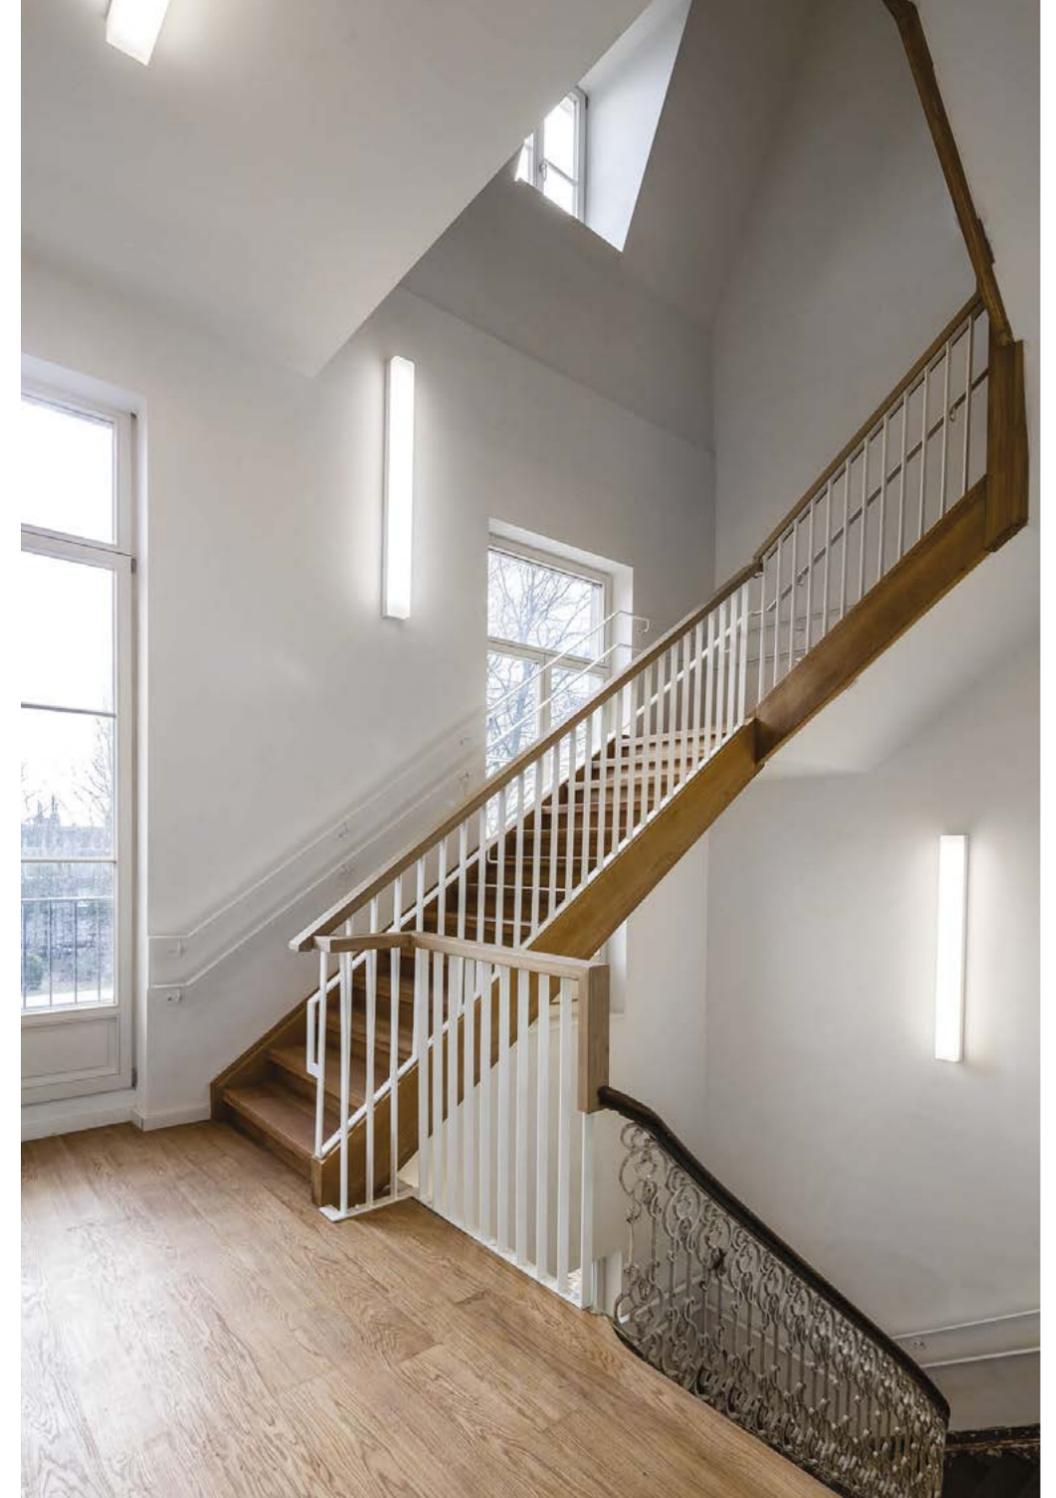

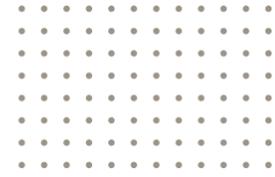

**LOCATION**  
Bělá u Staré Paky / Czech Republic

**LUMINAIRE**  
INNOVA 1.4ft ABS 6400/840 RED

TREEVOS

INNOVA ABS luminaires from the RED CONCEPT, featuring an integrated red LED module and enhanced chemical resistance to ammonia vapors, are a perfect choice for breeding facilities. The red light minimizes disruption to the cattle's biorhythm, supports night-time operations, and can even boost milk production.

# INTERIORS

OUR PRODUKT

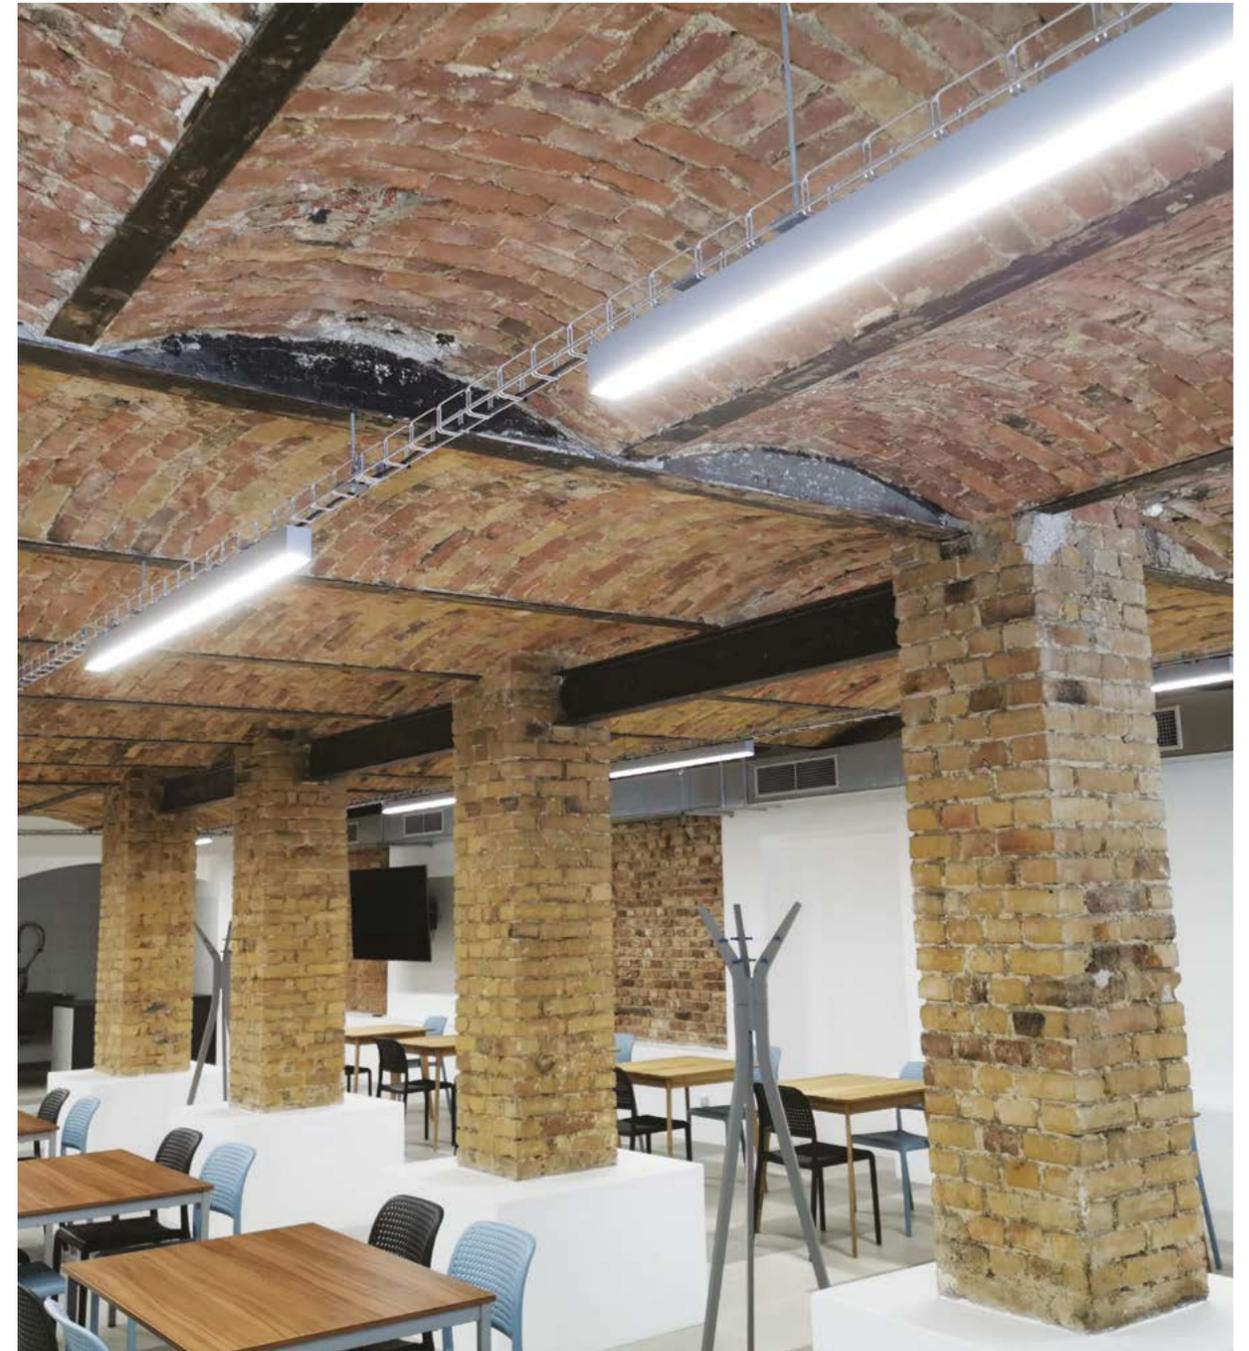

**COLLEGE**

**LOCATION**  
Antwerp / Belgium

**LUMINAIRE**  
LINEA 1.4ft 3200/840

TREEVOS

A former castle in Antwerp, now serving as student accommodation, has been equipped with LINEA luminaires. Chosen for their elegant design and optimal lighting performance, these luminaires meet the project's needs for a ceiling-mounted plastic luminaire.

## INTERIORS

OUR PRODUKT

### COMPANY CANTEEN

**LOCATION**  
Frýdlant / Czech Republic

**LUMINAIRE**  
VIP II LED 5340/840 OP / VIP II LED 3560/840 OP

TREEVOS

VIP II LED interior luminaires were chosen for Frýdlantské strojírny - Rasl a syn a.s. for their originality in industrial design, meeting all standards and quality requirements.

# INTERIORS

OUR PRODUKT

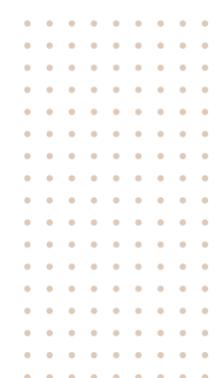

## SCHOOL CLASSROOM

**LOCATION**  
Turnov / Czech Republic

**LUMINAIRE**  
LUXOR LED 2.4ft 6400/840

TREEVOS

LUXOR LED luminaires, featuring a mirrored parabolic grid, were installed in the Secondary Medical School in Turnov to ensure low glare in the classrooms.

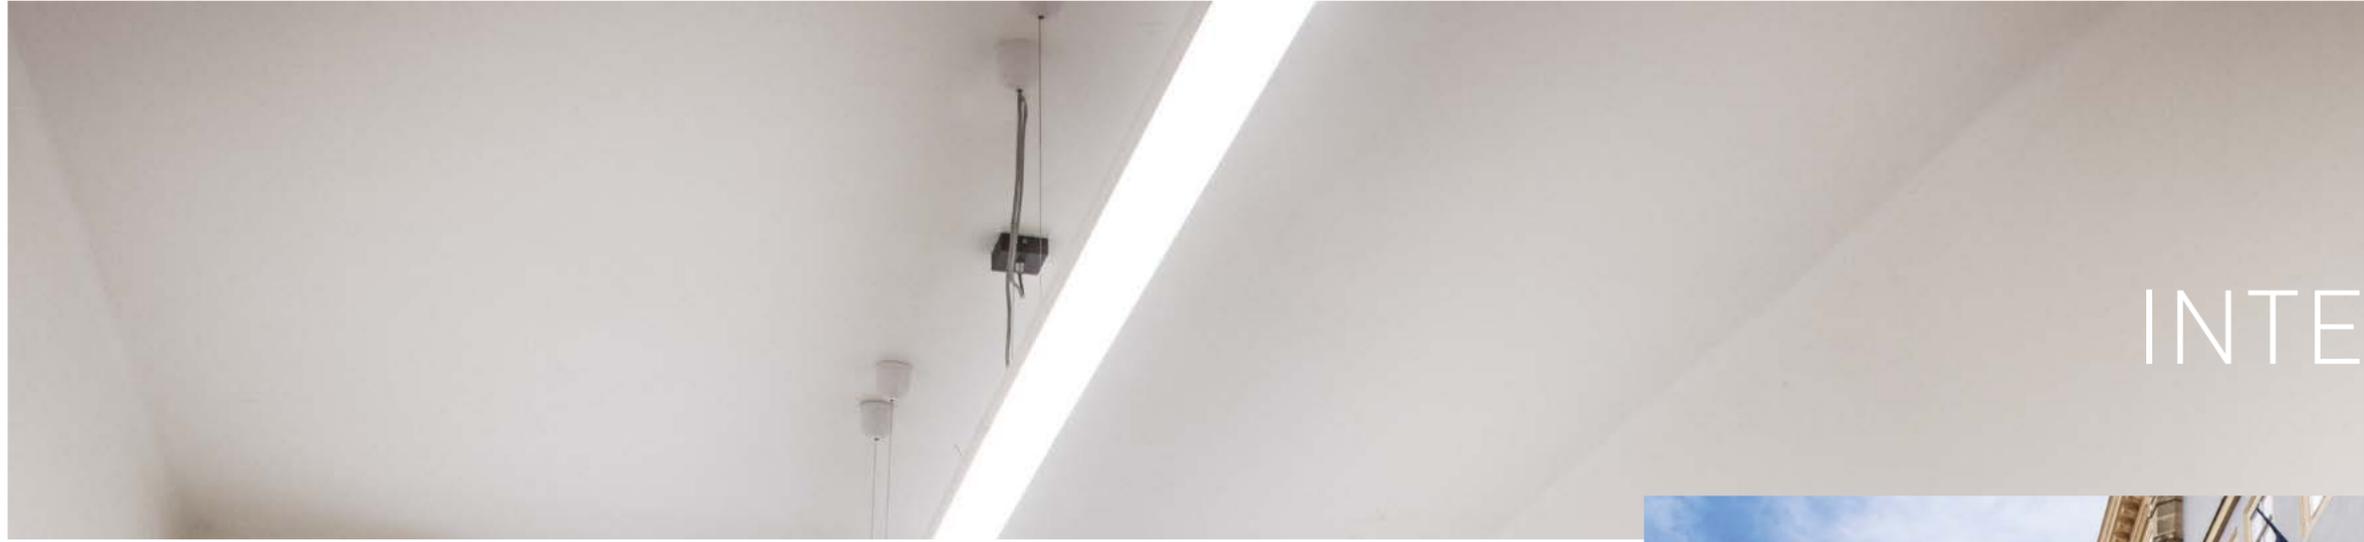

## EDUCATION CENTRE

**LOCATION**  
Turnov / Czech Republic

**LUMINAIRE**  
NAON 1.4ft 6400/840 DALI

TREVOS

The modern metal pendant luminaire NAON adds an elegant touch to the interior of the training centre while providing excellent lighting.

# INTERIORS

OUR PRODUKT

## OFFICES

**LOCATION**  
Litoměřice / Czech Republic

**LUMINAIRE**  
MO SLIM 1.4ft 6400/840

TREEVOS

MO SLIM luminaires, featuring clean, straight lines, were installed in the newly renovated historic town hall in Litoměřice to fulfill the requirement for a sleek interior pendant light.

# INTERIORS

## SOCIAL SERVICES FACILITY

**LOCATION**  
Lomnice n. Popelkou / Czech Republic

**LUMINAIRE**  
NAOS 2.5ft MPR 6500/840

TREEVOS

The NAOS MPR interior luminaire, chosen for its simple design and low glare, provides ideal lighting for the offices and adjacent areas in the new DOMOV DOMA building in Lomnice nad Popelkou.

# INTERIORS

OUR PRODUKT

## MULTIFUNCTIONAL HOUSE

**LOCATION**  
Liberec / Czech Republic

**LUMINAIRE**  
LINEA SQUARE 3600/840

TREEVOS

During renovation, LINEA SQUARE luminaires, known for their minimalist design, were installed to illuminate the dentist's office, offices, and corridors in the heart of Liberec.

## PUBLIC LIGHTING

OUR PRODUKT

### PUBLIC CITY ROADS

**LOCATION**  
Turnov / Czech Republic

**LUMINAIRE**  
EVELUX M 48/600/727

TREEVOS

EVELUX luminaires were installed on Pekařova Street in Turnov, providing ideal lighting for public roads, residential zones, parking areas, and outdoor spaces, ensuring safe and reliable illumination for both roads and pavements.

# PUBLIC LIGHTING

OUR PRODUKT

## PUBLIC LIGHTING IN TOWNS AND VILLAGES

**LOCATION**  
Hrádek nad Nisou / Czech Republic

**LUMINAIRE**  
EVELUX M 48/310/727 CP/ MR1 / EVELUX S 16/310/727 CP/ MR1

TREEVOS

EVELUX public lighting fixtures were installed in the border town of Hrádek nad Nisou, significantly enhancing lighting quality while meeting the goal of reducing energy consumption for public lighting.
