CZECH **LED LUMINAIRES**

# LIGHTING FOR PUBLIC SPACES

**A** **EVELUX** with intuitive control via the MIDNIGHT function

## BENEFITS

- ✓ Feeling of safety and comfort
- ✓ Energy savings
- ✓ Low operating costs
- ✓ Supports human & animal biorhythms

Robust LED luminaire with the **MIDNIGHT** function available in **4 sizes**, **14 power variations** and **13 optics options**.

EVELUX

## APPLICATION

- Streets and roads
- Sidewalks, pedestrian zones
- Public spaces
- Parks, recreational areas
- Parking lots
- Bridges and tunnels
- Railway and bus stations

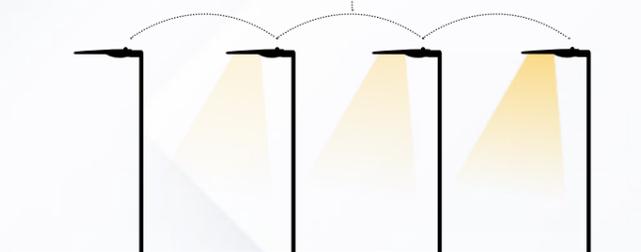

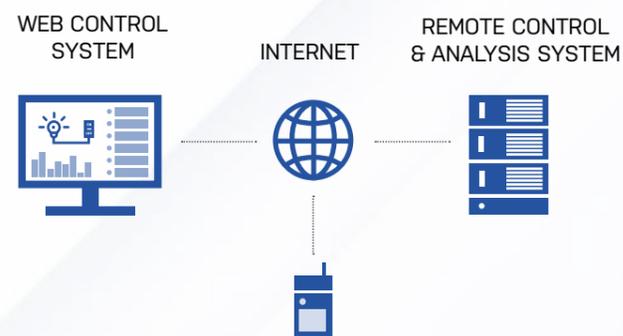

LUMINAIRES WITH **MIDNIGHT** FUNCTION ARE AVAILABLE IN **2 VERSIONS**

The Midnight function must be pre-programmed into the luminaire driver at the factory. (pre-set times cannot be altered later)

DALI with a Zhaga connector and a wireless communication unit (see the wiring diagram below)

## WHAT IS MIDNIGHT FUNCTION?

**MIDNIGHT** is a multi-stage night-time dimming system. This means that the luminaires adjust their brightness throughout the night to **minimize disruption to the circadian rhythms of people and animals** while maintaining **safe and comfortable** visibility on public roads.
